Campaign Types

CPI

CPI campaigns are usually used by advertisers when they need to drive high volumes of traffic to their app. Users have to install and open the app.

CPE / CPA

For CPE campaigns the advertiser defines an event the user has to reach, like playing until level 5. Those campaigns help to drive user engagement.

CPL

Advertisers like to leverage CPL campaigns when they are looking for signups or free trial subscriptions.

Our Clients

ayeT-Studios has worked with over **2,250+** Advertisers and successfully ran more than **100,000+** campaigns.
